

Category:Immunology

Pages in category "Immunology"

The following 152 pages are in this category, out of 152 total.

A

- ABO incompatibility/comments
- Active immunisation
- Acute inflammation
- Agglutination
- Agglutinin
- Agglutininogen
- Allergens in the Environment
- Allergic bronchopulmonary aspergillosis
- Allergic contact dermatitis
- Allergic professional diseases of the airways and lungs
- Allergic skin manifestations
- Allergy
- Allergy treatment
- Alpha-1-microglobulin
- An alternative way of complement activation
- Anaphylactic shock
- Anaphylaxis
- Antibody
- Antibody class switching
- Antigen
- Antigen-presenting cells
- Antiphospholipid syndrome
- Antithrombin III
- APUD system
- Arboviruses
- ASLO
- Ataxia teleangiectasia
- Atopic eczema
- Autoimmune Diseases
- Autoimmune diseases
- Autoimmune liver disease
- Autoimmune lymphoproliferative syndrome
- Autoimunitní lymfoproliferativní syndrom
- Autosomal inherited agammaglobulinemia
- Avidity

B

- B - Lymphocytes
- Barrier functions of the body
- Basic terms of the immune system
- Bloom's syndrome
- Brucellosis
- Bruton's agammaglobulinemia
- Burton's agammaglobulinemia

C

- Autoantibodies
- Cell cooperation in the B immune response
- Chemotaxis
- Chronic Granulomatous Disease
- Churg-Strauss syndrome
- Classical pathway of complement activation
- Cluster designation
- Cooperation of immunocompetent cells in the T immune response
- Crohn's disease

D

- Defensive properties of neutrophils and monocyte-macrophages

- Dermatitis contacta allergica
- Dermatitis herpetiformis
- DiGeorge syndrome

E

- Eicosanoids
- Eosinopenia
- Eosinophil granulocyte
- Epitope

F

- Food allergies

G

- Granulocytes

H

- Histamine
- HIV
- Hives
- Human herpesvirus 8
- Hyperimmunoglobulinemia IgM syndrome/other types
- Hypersensitivity

I

- IgA nephropathy
- Immune defense against intracellular bacteria and fungi
- Immune defense against multicellular parasites
- Immune disorders
- Immune system and cancer
- Immune system development
- Immunization
- Immunochemical methods
- Immunochemistry
- Immunocompetent cells
- Immunodeficiency
- Immunoglobulin family
- Immunoglobulins M
- Immunological examination
- Immunological tolerance and possibilities of its induction
- Portal:Immunology
- Immunomodulators
- Immunopathological reaction II. type
- Immunopathological reaction III. type
- Immunopathological reaction IV. type
- Immunopathological reaction type I
- Immunosupresants
- Immunotherapy
- Inflammation
- Innate Immune System
- Interferons
- Interleukins

K

- Khediak-Higashi syndrome

L

- Laboratory determination of specific IgE antibodies
- Laboratory diagnosis of autoimmune diseases
- Laboratory testing of cellular immunity
- Lectin pathway of complement activation
- Lectins
- Leukocyte
- Leukopenia
- Lymphocyte
- Lymphocytopenia
- Lymphocytosis

M

- Macrophages
- Major Histocompatibility Complex
- Monoclonal antibodies in treatment
- Monoclonal antibody
- Multiple sclerosis

N

- Neutropenia
- Neutropenia in children
- Neutrophilia
- NK cells
- Non-specific immunity
- Non-specific intestinal inflammations
- Nonspecific immunity

O

- Ocular cicatricial pemphigoid
- Omenn syndrome
- Opsonin
- Opsonization
- Oral Tolerance

P

- Passive immunization
- Pemphigoid
- Pemphigus
- Pollen
- Primary immunodeficiencies
- Primary immunodeficiency

R

- Rheumatoid factor

S

- Severe Combined Immunodeficiency Disease
- Severe congenital Kostmann neutropenia
- Signal transmission in cells
- Skin immune system
- Skin tests
- Specific immunity
- Spleen
- Systemic vasculitides
- Systemic vasculitis

T

- T cells
- The immune system
- The immune system and cancer
- Therapeutic use of immunoglobulins
- Thrombocytes
- TNF
- Type I immunopathological reaction
- Type II immunopathological reaction
- Type III immunopathological reaction
- Type IV immunopathological reaction

U

- Urticaria

V

- Vaccines

W

- White blood cells abnormalities
- Wiskott-Aldrich syndrome

Media in category "Immunology"

This category contains only the following file.

Imunologie.png
