How to edit a typo in the name of an article?

Hello,

How can I edit a typo in the name of an article? I missed a 'n' in aberrations in the name of this article: Chromosomal aberrations in etiology of neoplasms.

Sorry for the trouble I caused.

Sincerely, Anya

Deleting an image

Hi, I was creating a translation of two Wikiskripta articles and struggled to find the same images that were used there ([[1] (https://www.wikiskripta.eu/index.php?curid=19890#/media/Soubor:Komplex_b%C3%ADkoviny_s_m%C4%9Bd%C3%AD.png%7Cimage1)] & [[2] (https://www.wikiskripta.eu/index.php?curid=47506#/media/Soubor:Ruptura_plic.jpg%7Cimage2))] so without thinking much I downloaded the images and reuploaded them to Wikilectures (here & here (https://www.wikilectures.eu/index.php?title=Special:Search&profile=images&search=lung%20rupture&fulltext=1#/media/File:Lung_rupture.jpg)). But in hindsight that's probably not the correct way, because I'm not the author of the pictures... So please how I can fix that to not violate any copyrights? Thanks a lot! Sarka
