

Help:Navbox

Navboxes are horizontal navigation templates placed at the bottom of an article that contain links to related topics.

This page serves as an overview of created navbox that can be used in new or existing articles.

Navboxes should be decorated. The source of the breakdown of the topic the navbox is based on should be listed on the documentation subpage of the navbox - e.g. Viruses navbox documentation.

Usage

The navbox is inserted as the **penultimate article item**, with only categories following the navbox (and other templates). The navbox is **not inserted into related articles**.

Anatomical navboxes

Muscles

Source code `{{Navbox - Muscles of the head}}` creates

Source code `{{Navbox - Muscles of the abdomen}}` creates

Source code `{{Navbox - Muscles of the thorax}}` creates

Source code `{{Navbox - Muscles of the lower limb}}` creates

Source code `{{Navbox - Muscles of the upper limb}}` creates

Source code `{{Navbox - Muscles of the neck}}` creates

Source code `{{Navbox - Muscles of the back}}` creates Template:Navbox - Muscles of the back

Nerves

Source code `{{Navbox - Nerves of the upper limb}}` creates Template:Navbox - Nerves of the upper limb

Source code `{{Navbox - plexus lumbalis}}` creates Template:Navbox - plexus lumbalis

Source code `{{Navbox - plexus sacralis}}` creates Template:Navbox - plexus sacralis

Source code {{Navbox - cranial nerves}} creates Template:Navbox - cranial nerves

Arteries

Source code {{Navbox - Arteries of the upper limb}} creates

Source code {{Navbox - Arteries of the lower limb}} creates

Other anatomical navboxes

Source code {{Navbox - topographic anatomy}} creates Template:Navbox - topographic anatomy

Source code {{Navbox - bones}} creates Template:Navbox - bones

Biochemical navboxes

Source code {{Navbox - hormones}} creates Template:Navbox - hormones

Source code {{Navbox - amino acids}} creates Template:Navbox - amino acids

Source code {{Navbox - vitamins}} creates Template:Navbox - vitamins

Pharmacological navboxes

Source code {{Navbox - ATB}} creates Template:Navbox - ATB

Source code {{Navbox - Antidepressants}} creates Template:Navbox - Antidepressants

Source code {{Navbox - Antipsychotics}} creates Template:Navbox - Antipsychotics

Genetic navboxes

Source code {{Navbox - inherited metabolic disorders}} creates Template:Navbox - inherited metabolic disorders

Source code {{Navbox - monogenically inherited diseases}} creates Template:Navbox - monogenically inherited diseases

Microbiological navboxes

Source code {{Navbox - bacteria}} creates Template:Navbox - bacteria

Source code {{Navbox - parasites}} creates Template:Navbox - parasites

Source code {{Navbox - viruses}} creates Template:Navbox - viruses

Diseases

Source code {{Navbox - diseases of the blood}} creates Template:Navbox - diseases of the blood

Source code {{Navbox - thyroid disease}} creates Template:Navbox - thyroid disease

Source code {{Navbox - intestinal infections}} creates Template:Navbox - intestinal infections

Other navboxes

Source code {{Navbox - Erythropoiesis}} creates Template:Navbox - Erythropoiesis

Source code {{Navbox - tumour markers}} creates Template:Navbox - tumour markers

Source code {{Navbox - Inflammation}} creates Template:Navbox - Inflammation
